APPENDIX B

Required Daily Wheelchair Lift Inspection Elements

For each day services are provided, providers must complete and document an inspection of the wheelchair lift prior to any participant service that day according to these specifications:

1. Run the lift through one complete cycle to be sure that it is operable.
2. Check for any signs of seal leaking or binding or hardware.
3. Check for frayed or damaged lift cables, hydraulic hoses, or chains.
4. Check for physical damage and jerky operation.
5. Check for hazardous protrusions and exposed edges. Assure that all protrusions are adequately padded and protected.
6. Check all fasteners and assure that all bolts are snug.
7. Make sure the lift is properly secured to the vehicle when stored.
8. Clean the lift completely of dirt, mud, gravel, and corrosive elements such as salt.
9. Lubricate the lift in compliance with the manufacturer's requirements.
10. Providers shall not use the lift any time repairs are necessary.
